

Ferrari 458 Italia

Body by Fontana Pietro s.p.a.

New **Ferrari 458 Italia**, the last 8 cylinders by Maranello car-company, was officially introduced on the market some days ago and will firstly show up at next Salone of Frankfurt in forthcoming September. We are pleased to say that **Fontana Pietro S.p.a.** appears as Ferrari's **PARTNER** for the production of **aluminium car-body** on the website:

http://speciali.ferrari.com/458italia/index.html?utm_source=newsletter&utm_medium=email&utm_term=it&utm_content=458italia&utm_campaign=090803_La%2Btua%20Estate%20con%20Ferrari.com&uid=285278597&mid=400355295

together with 8 other suppliers which have contributed to the realization of this project.

458 ITALIA

It is a remarkable acknowledgement to **Fontana Group** and its incomparable know-how in the production of the most complex shapes for the aluminium car-bodies required by the most prestigious brands.

Aluminium is a challenging material, but also very used in more industrial fields tank to its undeniable qualities: it is light, bright and, last but not the least, 100% recyclable.

The ability to fold aluminium creating ambitious stylish shapes, according to strongly innovative production processes, makes Fontana Group an excellent supplier, rewarded by its primary Customers through long-lasting partnerships.
