

FONTANA PIETRO S.P.A.

Jan 19th 2005

Quality...also in Turkey

Premise: this is an internal e-mail communication by Fontana Pietro Kalip to Fontana Pietro Italia, published on the website Courtesy of the Company.

Good morning everybody,

Here annexed a communication received by Mr. Selçuk Saraçoğlu and Giorgio Mari, Vice Presidents of Fontana Pietro Kalip in Istanbul – Turkey yesterday.

Some Pictures of FPK

General Management of Fontana Pietro SpA, main stock-holder of FPK, believes it is necessary to transparently spread out this piece of information through the company Intranet and Internet.

This piece of information, in fact, is thought to increase in employees, customers and neighbourhood the feeling of belonging to a reality like Fontana Pietro and its companies, careful of MAN first of all, and therefore to increase their pride in being part of it.

The result we are introducing perfectly matches with the communications received by our customers, asking for an ETHIC CODE to be applied by industries worldwide, anywhere and anytime, where MAN IS CONSIDERED AND RESPECTED AS A HUMAN BEING.

FONTANA PIETRO S.P.A.

IT IS TOTALLY NATURAL FOR US TO JOIN SUCH CULTURAL CONSIDERATION, and facts are a prove of it, AS ALWAYS.

FONTANA WAY OF MAKING BUSINESS is the philosophy leading us even in the application of relocation and internationalization strategies.

Best regards,

FONTANA PIETRO S.P.A.

Walter Fontana

President Chairman & C.E.O.

A: FONTANA WALTER

Oggetto: Ispezione del Min. Lavoro per Agibilità Stabilimento

Dear Walter,

The Surveyor of the Ministry of Labour visited us today to check:

- Safety rules on the job
- Theory and application in the Company
- Production machines and relative possible dangers
- Equipment of men working on machines
- Safety of electrical and gas plants
- Anti-fire system
- Electrical isolation system (lightning rod)
- Hygiene in refectory and toilettes
- Water circulation and drainage systems
- Constitution and functioning of the medical premises, infirmary included
- Backstairs and fire escapes
- Recipients under pressure (compressor tanks)
- Other

The preliminary check according to law turned out in a score of 300 and the report showed "0" defects.

By the first week of February we shall be officially given permission of viability and industrial working activities.

Best regards,

Selçuk & Giorgio
